23 July 1953

The Honorable W. Sterling Cole House of Representatives Washington, D. C.

Dear Mr. Cole:

The matter discussed in your letter of 14 July 1953 is of continuing concern to the intelligence community. As you know, the fullest possible exploitation was made of the Fuchs case in 1950. In addition to the information resulting from the interrogation, a thorough investigation was made by the Atomic Energy Commission to establish the areas of knowledge to which Fuchs wad access and the thinking and planning current in those areas at the time of his access. With each new U.S. development or advance, a new examination is made to determine what information related to this might have been available to Fuchs. The known and possible disclosures of Fuchs are always considered in interpreting intelligence information on the U.S.S.R. Atomic Energy activities.

Should the Committee have specific information which would indicate that further interviews would be of value, it would be helpful to have it in connection with
